Re: Unpermitted Small Mining Project, Bedier Project, S/019/047, Grand County, Utah

Dear Mr. Bedier:

In June 1999, a Division letter was sent to you requesting submission of a notice for removing rock from an area near Crystal Geyser, in Section 35, T21S, R16E, Grand County, Utah. Along with that letter was a billing statement describing the Division's permit fee for all mining notices. On November 12, 1999 we received your \$100.00 permit fee; however, a notice was not included with that payment.

On March 29, 2000, the Division and the BLM performed a joint site inspection of the area. A copy of that inspection memo is enclosed. During the inspection, it was determined that there is probably less than one acre of disturbance at the present time. Neither the Division nor the BLM have a completed notice for this project disturbance.

Enclosed is a Notice of Intention to Commence Small Mining Operations (MR-SMO) for your use. Please complete the notice and return it to this office by May 10, 2000. Please include a map showing the current disturbance and the access roads you are using to access your project. We also request that you delineate the area you will be utilizing for your small mining project on the ground, using T-posts or some other semi-permanent posts.

The Division requires a permit fee be submitted annually based on our fiscal year (July 1 - June 30). A billing statement for the 2000 fiscal year will be sent to you for that payment.

If you have any questions regarding this letter, please contact me at (801) 538-5267. Thank you for your immediate response.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
